

Bulletin July 10, 2023

Rotax Mini Max

In Mini Max we will all be having spec gearing to reduce the top speed.

Spec Gear Ratios for Mini will be **14/66, 14/67, 14/68.**

Also we wanted make sure everyone in Micro and Mini classes have seen the new updated bulletin from Rotax Canada (SRA Karting) regarding the extra plates required for the reeds. This will be in place for the first event and each engine **must** have the required pieces installed.

Here is a link to the Bulletin:
